PolicyPilot Test Remote Work Addendum
Fictional document for multi-document RAG, citation, and agent evaluation.
Document ID: PP-TEST-002
Effective date: 15 February 2026
Organization: Northstar Technologies (fictional)
This document is synthetic and created solely for software testing.

1. Scope and Applicability
This addendum supplements Section 3 (Remote Work Policy) of the Enterprise Handbook (PP-TEST-001).
All remote working arrangements remain subject to operational feasibility and manager approval.

2. Equipment and Home Office Stipend
Employees authorized for remote work are eligible for a one-time home office setup stipend of INR 15,000.
Reimbursement claims must be submitted within 30 days of remote work approval with valid receipts.

3. Security and Core Availability
Remote employees must complete quarterly security awareness refresher training.
During remote work days, employees must maintain normal working hours and be available on enterprise messaging tools.
VPN connectivity is strictly required whenever connecting to internal production systems.

4. Workspace Assessment and Compliance
Employees must certify that their home working environment meets ergonomic and physical security standards before starting remote work.
Managers must conduct a semi-annual review of remote working arrangements.
